

HEALTH HISTORY INVENTORY

Fitness & Function LLC

Please answer each of the questions in this inventory to the best of your ability. For each question, please mark the best choice, unless otherwise indicated. In some instances, you will need to write out your response. If you need assistance with answering any of these questions, please request assistance from a fitness professional. All of your responses will be treated in a confidential manner.

GENERAL INFORMATION

Name: _____

Gender: Male Female Date of Birth: _____

Height: _____ ft ____ inches. Weight pounds: _____

Address: _____

State: _____ ZIP: _____

Phone (office): _____ Phone (cell): _____

Phone (home): _____ E-mail: _____

Occupation: _____

Primary Care Physician: _____

Address: _____

State: _____ ZIP: _____

Phone (office): _____ Fax: _____

Program Goals (i.e.. your training objectives): _____

PART I: PAST MEDICAL HISTORY

1. Have you ever been told by a doctor that you have or had heart problems, an abnormal EKG, or had a heart attack or stroke? Yes No

2. Have you ever had coronary by-pass surgery, angioplasty, or any other type of heart surgery? Yes No

39. Do you use sugar sparingly by adding little or none to the foods you eat and by limiting your intake of desserts, candy, and soft drinks? Yes No
40. Do you limit your alcohol consumption to 1-2 drinks or fewer per day? Yes No
41. If you answered NO to any of the questions in party (questions 37-40), please describe below: Yes No
-

I have answered the questions in this Health History Inventory to the best of my ability, and as accurately and completely as possible. I understand that this information is kept strictly confidential and is used only for the purpose of helping the health/fitness professional make the most appropriate recommendations and design a safe and effective physical-activity program to meet my unique needs. Furthermore, I understand that this information cannot be released to any other party without my written approval in accordance with the Health Insurance Portability and Accountability Act of 1996. I understand that my failure to disclose health, medical, or related information that might affect my participation in physical activity may limit the ability of the health/fitness professional to provide the safest possible physical-activity program. Finally, I understand that the information collected in this Health History Inventory has been designed using the recommendations provided by the American College of Sports Medicine for risk stratification as described in their publication, ACSM's Guidelines for Exercise Testing and Prescription, 7th edition (2006).

FOR USE BY A QUALIFIED FITNESS PROFESSIONAL—HEALTH HISTORY INVENTORY II

1. Check off the major coronary risk factors as described by the American College of Sports Medicine in their publication, ACSM's Guidelines for Exercise Testing and Prescription, 7th edition (2006).

- Dyslipidemia (total cholesterol over 200mg/dL, LDL over 130mg/dL, HDL less than 40mg/dL. or on lipid medication)
- Hypertension (systolic BP >140 mmHg, diastolic BP >90 mmHg as confirmed by two measurements)
- Cigarette smoking (current smoker or stopped within the past 6 months)
- Impaired fasting glucose (fasting level >100 mg/dL)
- Obesity (body mass index >30: waist/hip ratio greater than 40 inches (102 cm) for men and and 35 inches (88cm) for women)
- Sedentary lifestyle (person does not participate in a regular exercise program)
- Family history (history of heart attack or heart surgery before age 55 on the male side of the family and before age 65 on the female side of the family)

2. Risk Stratification

- Low Risk (men < age 45 or women < age 55 who are asymptomatic and have no more than one risk factor)
- No physician clearance required for this person to engage in a program of moderate physical activity.
- Moderate Risk (men > age 45 and women > age 55, or those who have two or more risk factors at any age)
- Physician/medical clearance required before this person can engage in a program of moderate physical activity
- High Risk (individuals having one or more signs or symptoms, or having known cardiovascular, pulmonary, or metabolic disease)
- Physician/medical clearance required before this person can engage in a program of moderate physical activity.
